

MASTERPULS® MP50 »ultra«

- Radial shock wave:
pressure: 0.3 – 4.0 bar_{eff}
frequency: 1 – 17 Hz (depending on pressure)
- Radial handpiece »FALCON« with integrated display for rapid treatment navigation
- Vibration therapy (optional), V-ACTOR®: 1 – 21 Hz
- 10" touch screen (optional)
- Available in green, blue, orange and black ●●●●

MASTERPULS® MP100 »ultra«

- Radial shock wave:
pressure: 0.3 – 5.0 bar_{eff}
frequency: 1 – 21 Hz (depending on pressure)
- Radial handpiece »FALCON« with integrated display and »Skin Touch« function for rapid treatment navigation
- Vibration therapy (optional), V-ACTOR®: 1 – 31 Hz
- 10" touch screen (optional)
- Available in green, blue, orange and black ●●●●

MASTERPULS® MP200 »ultra«

- Radial shock wave:
pressure: 0.3 – 5.0 bar_{eff}
frequency: 1 – 21 Hz
- Radial handpiece »FALCON« with integrated display and »Skin Touch« function for rapid treatment navigation
- Two R-SW handpiece connectors
- Vibration therapy (optional), V-ACTOR®: 1 – 35 Hz
- Vacuum therapy (optional), VACU-ACTOR® technology
- 10" touch screen (optional)
- Available in green, blue, orange and black ●●●●

DUOLITH® SD1 T-TOP »F-SW ultra«

Handpiece »SEPIA«

- Focused shock wave, standard energy range: 0.01 – 0.55 mJ/mm²
- Focused shock wave, extended energy range: 0.03 – 1.24 mJ/mm²
- Focused handpiece »SEPIA« with integrated display for rapid treatment navigation
- 10" touch screen (optional)
- Available in green, blue, orange and black ●●●●

DUOLITH® SD1 TOWER »ultra« – R-SW module

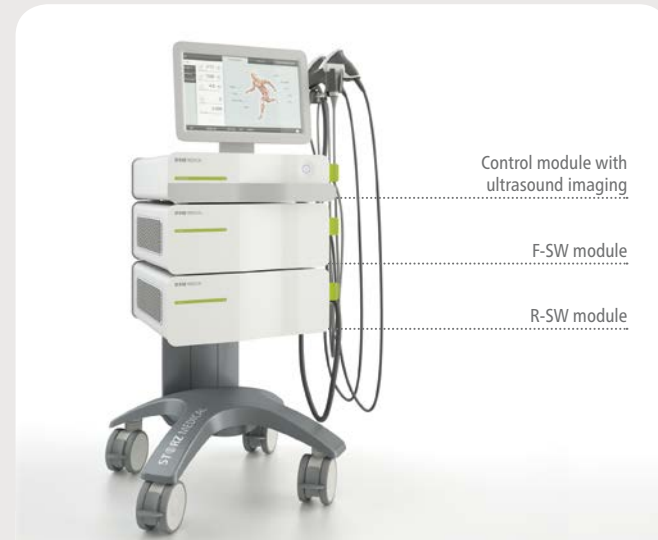

Control module with ultrasound imaging

R-SW module

- Radial shock wave: pressure: 0.3 – 5.0 bar_{eff}
frequency: 1 – 21 Hz
- Radial handpiece »FALCON« with integrated display and »Skin Touch« function for rapid treatment navigation
- 15,4" touch screen
- Integrated ultrasound imaging, Colour Doppler (optional): »standard«: 2 – 10 MHz or »high resolution«: 1.5 – 15 MHz
- Vibration therapy (optional), V-ACTOR®: 1 – 35 Hz
- Drawer module »Store Case« (optional)
- Available in green, blue and black ●●●

DUOLITH® SD1 TOWER »ultra« – R-SW & F-SW module

Control module with ultrasound imaging

F-SW module

R-SW module

- Combined shock wave therapy with 15,4" touch screen
- Functional parameters (radial and focused shock wave) see DUOLITH® SD1 T-TOP »F-SW ultra« and DUOLITH® SD1 TOWER »ultra« – R-SW module
- Available in green, blue and black ●●●
